

KLOVE has changed my life here in San Diego and I don't know what I would do without it. I can not afford to purchase music so klove is truly a gift for me and those around me. KLOVe is the only positive messaging I receive in my community and it brings a light into my daily activities. Its tips and segments are also invaluable they strengthen my relationships and those who listen with me. This country can not afford the loss of yet another positive and encouraging life to an action like lpfm taking the station away. Please understand what a value this adds to lives in my community and the postive changes it makes to lives every day who then contribute more and more to society.
